Hi all,

Thanks for your time today, hope it was useful.

We will prepare 3 scenarios with that information:

1. Amount of municipalities
2. Amount of Law enforcements
3. User acquisition
4. Income vs costs
5. Revenues

If you would like to get more information about other segments, please don't hesitate and send it to me, I will add it to the table.

Regards,

Amir Elichai - Founder & CEO
